WHAT IS A COOPERATIVE SOCIETY ?

1. A Cooperative Society is an economic enterprise which can be started by any ten or more persons by coming together and registering their organisation under the Cooperative Societies Act
2. Various types of Cooperative Societies can be formed by the members coming together as stated at (1) above.
3. The primary aim of Cooperative Societies is to render various services to its members as well as to non-members.
4. Cooperative Societies are formed for distribution of consumer goods in urban and rural areas, marketing of agricultural produce of farmers from the production areas, and giving loans to members for utilisation for productive purposes in agriculture and other allied activities, distribution of fertilizers and other agriculture inputs, rendering agro-custom hiring services to farmers, and also for various other purposes.
5. Cooperative Societies registered under (1) above can avail various concessions and facilities in the form of soft loans, subsidies from National Cooperative Development Corporation and other organisations.
6. In Meghalaya we have Transport Cooperatives, Industrial Cooperatives, Credit Cooperatives, Marketing Cooperatives, Thrift Societies, Joint Farming Cooperatives and various other types of co-operatives suited to specific needs of the members.

If you are interested to organise a cooperative Society you may contact the Registrar of Cooperative Societies, Shillong or Assistant Registrar of Cooperative Societies, in the Districts who will guide and help in organising whenever you require.
